

# Inside Broadway's Senior Center Cultural Initiative Program

Let Inside Broadway bring the Magic of Broadway to your senior center.

The Department of Aging, in partnership with the Department of Cultural Affairs and the New York City Council have created the Senior Citizen Cultural Initiative to bring the cultural experiences that New York City has to offer to senior citizens throughout the city. Inside Broadway has responded to this initiative by creating a unique program that will bring the best of Broadway to your senior center.

The **Magic of Broadway** program consists of 20 one hour sessions that can be designed to fit your center's schedule.

## The Magic of Broadway

The Magic of Broadway residency is comprised of two sections that are meant to include everyone. The first ten sessions will be an introduction to theatre and its wonderful advantages. The participants will sing, dance and act while learning important theatrical techniques that are used by Broadway stars! With workshops such as *Let's Sing!*, *Gotta Dance!*, *The Greatest Stars*, and *Acting 101* your members are guaranteed to have a fun and memorable time. There will also be professional guest speakers to demonstrate Broadway's disciplines such as Stage Make-up, Costume Design, and Stage Management. The final ten sessions are devoted to creating a musical revue that will be performed for the senior center community. Your members will be stars when they razzle dazzle the audience with their Broadway moves.
